ABOUT ME

Highly proficient Oracle APEX Developer and Database Specialist with 3+ years of experience in enterprise environments, recently graduated with a master's in Data Science. Expert at bridging the gap between robust database architecture (SQL, PL/SQL) and advanced analytical modeling (Python, Machine Learning). Proven track record of optimizing system performance and integrating complex AI insights, such as LLM-based sentiment analysis, into business-critical Oracle EBS modules.

PROFESSIONAL EXPERIENCE

Data Engineer / Analytics Developer (Oracle APEX)

Academic & Freelance Projects

- Designed and maintained relational database schemas to support HR, sales, and management systems.
- Built end-to-end data workflows using Oracle APEX, from data ingestion to transformation and reporting.
- Implemented data validation rules and constraints to ensure data integrity across systems.
- Optimized complex SQL queries to improve reporting performance.
- Converted operational data into analytics-ready datasets for decision-makers.

Artistic Apparels Pvt Ltd

Oracle Application Consultant

Karachi, Pakistan Sept 2019 - Feb 2022

- Managed and provided L2/L3 support for Oracle APEX, PL/SQL forms, and customized Oracle EBS forms and reports.
- Delivered comprehensive technical solutions across critical EBS modules, including Order Management (OM), Bill of Materials (BOM), Purchase Requisition, and Purchase Order
- Integrated Oracle APEX applications directly with Oracle EBS modules, enabling real-time data flow and providing six internal dashboards to key stakeholders.
- Optimized data access and analytical reporting by developing complex SQL queries for dashboard creation, improving data visibility and report generation efficiency by 30%.
- Provided specialized technical support for ERP configurations, including Fixed Assets, Inventory (IGP & GRN), and Supplier/Customer master data setup.

Surriya Textile Mills

Oracle APEX Developer

Karachi, Pakistan Feb 2022 - Sept 2022

- Led the complete initiation and infrastructure setup of the Oracle APEX environment, including installation, configuration, and integration with the existing Oracle database, defining the new development platform.
- Spearheaded the full-lifecycle development, delivering end-to-end mission-critical business solutions on the newly established APEX platform, encompassing procurement and inventory processes.
- Developed advanced APEX components, including interactive grids, master-detail forms, and APEX_MAIL functionality to automate internal notifications.
- Authored and maintained robust back-end logic utilizing PL/SQL procedures and views to efficiently handle data for forms, reports, and various web/paper layout styles.
- Enhanced data integrity and query performance by extensively utilizing third-party database tools like TOAD and PL/SQL Developer for optimization and debugging.

EDUCATION

Master's In Data Science
University of Naples Federico II | Naples, Italy 2022–2025

- Key Focus Areas: Advanced database systems, machine learning, statistical analysis, and big data technologies.
- Thesis: Financial Sentiment Analysis Using Large Language Models.
- Final Grade: 100/110

Bachelors in Software Engineering
Sir Syed University of Engineering and Technology, Pakistan 2015–2018

- Gained a solid technical foundation in software design, programming, web development (HTML, CSS, JavaScript), and basic SQL for database management.

TECHNICAL SKILLS

- **Core Programming Skills**
  SQL (Expert), PL/SQL (Advanced), Python, R, Shell Scripting
- **Front-End**
  HTML5, CSS3, JavaScript

TECHNICAL TOOLS

- **Oracle Application Stack**
  Oracle APEX (Expert), Oracle EBS,Toad, SQL Developer / PL/SQL Developer
- **Data Science & Analytics**
  Jupyter Notebook, Python (Pandas, NumPy, Scikit-learn), R, LLMs, Statistical Analysis, Power BI, R Studio
- **Databases**
  Oracle Database, Microsoft SQL Server, MySQL, MongoDB
- **General Tools**
  Microsoft Office,

LANGUAGES

- English — Fluent
- Italian — Basic

PROJECTS & THESIS

Financial Sentiment Analysis Using LLMs (Master's Thesis)

- Successfully applied NLP techniques to analyze sentiment in financial news and social media.
- Benchmarked and evaluated transformer-based models (BERT, DistilBERT, GPT-3), contributing valuable insights to financial AI.
- Achieved 86% F1 score on classification accuracy after optimizing model performance.

Fater Challenge (Predictive Analytics)

- Utilized R/R Studio for initial exploratory data analysis and statistical modeling of sales factors, identifying key variables that drove a 22% decrease in sales year-over-year.
- Aimed to provide actionable insights for sales growth and improved business performance by 4%.

SOFT SKILLS

- Problem-Solving & Troubleshooting
- Technical Communication
- Cross-Functional Collaboration
- Time Management & Prioritization
- Adaptability & Continuous Learning

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Oracle Certified Foundation Associate
